## 2 Notes on the Legal Basis

In accordance with Section 4g Paragraph 2 Sentence 2 Federal Data Protection Act (BDSG), the data protection coordinator will, on request, make information in accordance with Section 4e Sentence 1 no. 1-8 BDSG available to anyone in a suitable way.

## 3 Definition

A method is a package of processes connected by an intended purpose determined by those responsible (explanatory statement to Article 18 EU Data Protection Guidelines). A directory of procedures is the overview to be published that can be understood by anyone (Section 4e Sentence 1 No. 1-8 BDSG). Accordingly, each responsible authority that processes personal data creates a 'directory of automated procedures (directory of procedures)'.

The obligation to notify is subject to automatic processing procedures in accordance with Section 4d Paragraph 1 BDSG. As a procedure consists of multiple automated processes or groups of automated processes, the overview to be created legally for the purposes of prior checks in accordance with Section 4d Paragraph 6 Sentence 2 BDSG with the information in accordance with Section 4e Sentence 1 nos. 1-9 BDSG and the information in accordance with Section 4g Paragraph 2 BDSG can be designated as a processing overview by the persons with access authorisation. The processing overview forms the foundation for the data protection coordinator's work.

The term 'automatic personal processing' is described as the collection, processing or use of personal data using data procession facilities in Section 3 Paragraph 2 BDSG.
